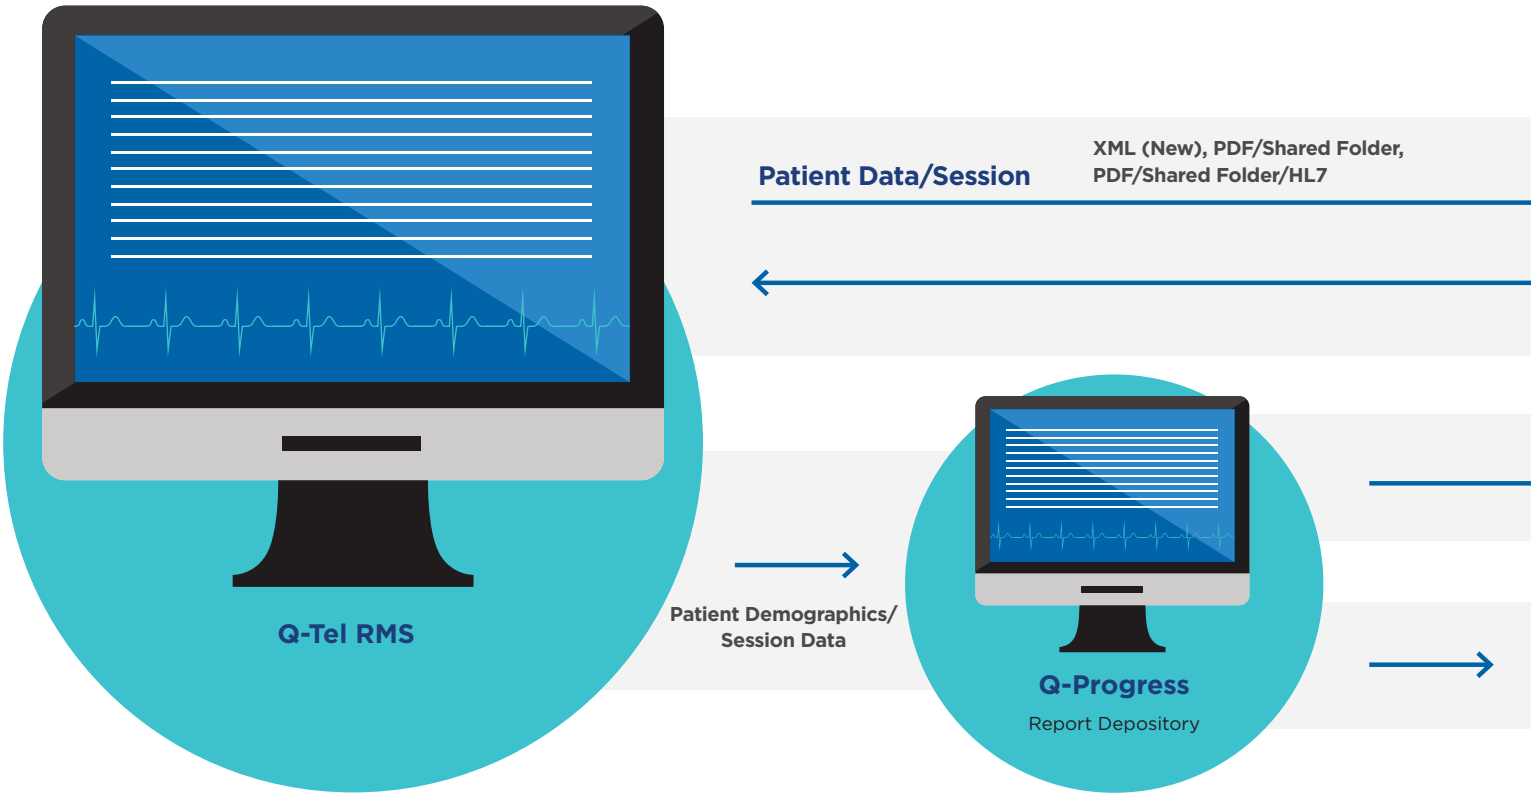
Welch Allyn Q-Tel® RMS Data Integration



While the Q-Tel RMS solution is powerful and feature-rich, the concept behind data integration with your EHR is quite simple. Its streamlined workflow provides comprehensive clinical information that can positively impact your:

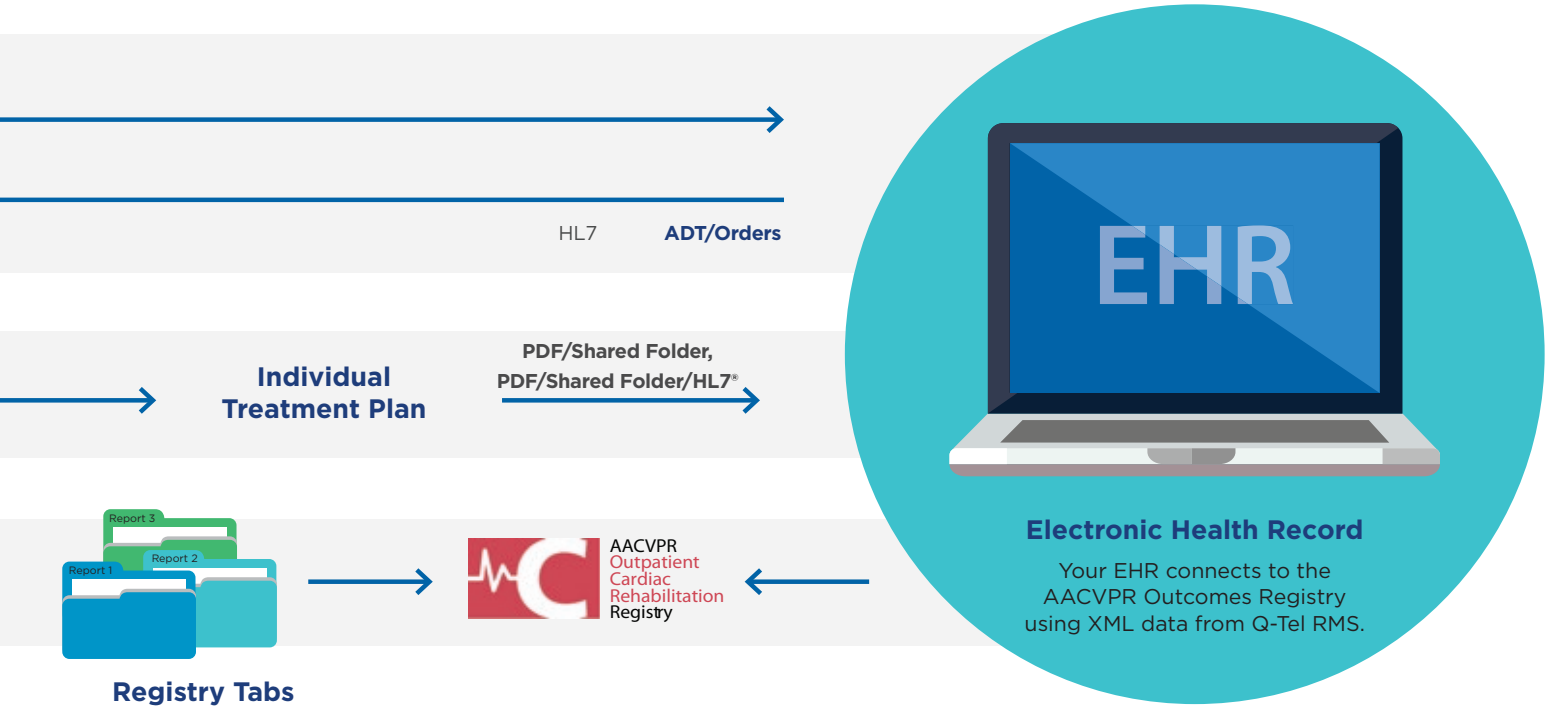
- **PATIENT CARE**
- **THROUGHPUT**
- **BOTTOM LINE**

Patient Care

- Decreased potential for errors associated with manual entry means accuracy and speed for clinicians, along with satisfied and well-cared-for patients.
- Input of all patient data within Q-Tel RMS is transferred to your EHR in XML format enabling fast, easy access for physician review.
- Physicians can read, edit and electronically confirm complete session data and EHR-formatted Individual Treatment Plan (ITP) templates anywhere across the network, anytime.
- No more wasted time; with Q-Tel RMS, hunting down patient reports is a thing of the past.

POWERED BY Mortara

With the industry's broadest range of diagnostic cardiology solutions, we help people get better care, inside and outside the hospital. Backed by **clinical excellence, connected solutions and continuous innovation,** Welch Allyn Cardiology is proud to be powered by Mortara.



Electronic Health Record

Your EHR connects to the AACVPR Outcomes Registry using XML data from Q-Tel RMS.

Registry Tabs

Data captured within Q-Progress is sent to the AACVPR Outcomes Registry with a single keystroke.

Throughput

- Clinicians will appreciate the ease and efficiency of this connectivity solution.
- Precious time is saved with reports generated by upload of patient data to the EHR templates.
- Q-Tel RMS makes it easy to save, review, combine and archive permanent patient data within your EHR network.
- The simple system is easy to learn, with intuitive left-to-right workflow and no re-entry of patient information.

Bottom Line

- Reports can be generated and approved without transcription or scanning into your EHR, saving time and money.
- Help minimize documentation and billing errors with automated data transfer from Q-Tel RMS.
- Patient health information is safeguarded against security breaches, helping to protect healthcare organizations from possible financial loss.
- Comprehensive reporting within your EHR helps to satisfy reimbursement requirements.

Q-Tel RMS Network Configuration

This diagram illustrates one of many customizable network configurations.

With the ability to edit exercise prescriptions while monitoring patients or exchange patient folders between users during session management, Q-Tel RMS optimizes daily workflow and provides accurate reporting when and where it's needed. With proven performance in cardiac and pulmonary rehabilitation environments for decades, the Quinton brand is firmly trusted by clinicians. Choose Q-Tel RMS for a diagnostic-quality solution with easily accessible data you can confidently stand behind.
